Customer Service, Satisfaction Focus of Newly Created Roles at Spancrete

Waukesha, Wis. (August 14, 2007) – The Spancrete Group, Inc., long recognized as the leader in the precast/pre-stressed concrete industry, recently assigned Brian Forston, Jim Gambon and Ron Klafka to fill the newly created roles of project managers.

Well-known in the construction industry for its commitment to customer satisfaction, Spancrete implemented the project manager positions to better serve the needs of their customers. Project managers will assume overall responsibility for a project, ensuring projects stay on schedule and within budget, while meeting the satisfaction of the client.

Formerly a project coordinator, Brian Forston has more than 22 years of construction experience, including six years with Spancrete. Forston earned a bachelor's degree in Construction Management from the University of Wisconsin-Platteville, and holds a certification in the Association of General Contractors Supervisory Training Program.

With more than 21 years of precast experience, including 14 years with Spancrete, Jim Gambon holds a bachelor's degree in Construction Management from Milwaukee School of Engineering (MSOE) and a bachelor's degree in Architecture from the University of Wisconsin-Milwaukee. Gambon also holds a certification in the Association of General Contractors Supervisory Training Program and an Associate Constructor Certification from the American Institute of Constructors. Prior to his new role, Gambon was a project coordinator for over five years and in the design and engineering department for nine years.

Previously working as a field superintendent, Ron Klafka has more than 35 years of construction and project management experience. He earned a degree in Engineering from Columbia University and is currently working toward a master's degree in Construction. Klafka is a member of the National Fire Protection Association, Indoor Air Quality Association and the International Concrete Restoration Association.

About The Spancrete Group, Inc.

Headquartered in Waukesha, Wis., The Spancrete Group, Inc. is a leading provider of architectural and structural precast concrete products to the Midwest construction industry. A third-generation, family-owned company, Spancrete is an industry pioneer, committed to being the most responsive partner and innovative provider of precast products and solutions. The company operates four precast concrete plants in Wisconsin and Illinois, Spancrete Machinery Corporation in Waukesha, and American Concrete Pipe Company in Green Bay and Milwaukee. The company recently announced the purchase of Florida Precast Industries, Inc., a manufacturer of Spancrete products serving the precast construction needs of central and southern Fla. All Spancrete facilities are PCI certified and supply precast concrete products to the entire Midwest region.
