“Day of Learning” Spotlights Spancrete’s Commitment to Education Free Course Offerings Provide Opportunity to Earn Five Learning Units

Waukesha, Wis. (August 22, 2007) – The Spancrete Group, Inc., long recognized as the leader in the precast/prestressed concrete industry, recently announced its new “Day of Learning” and Plant Tour, set for Thursday, September 13, 2007, in Waukesha, Wis.

Professionals within the construction, engineering and architectural communities, along with individuals from educational institutions are all invited to attend.

“Knowing how much our customers value staying on top of industry trends and new technologies, we expanded our plant tour concept to include an entire day of learning,” explained John Nagy, president and CEO of The Spancrete Group, Inc.

In addition to the plant tour and complimentary lunch, the day-long program also features four educational sessions with topics ranging from details of the new ER Post™ Structural System, applications related to architectural precast, basic elements of using structural precast components, and a field and erection demonstration.

Participants who attend each of the four courses and plant tour will earn 5.0 health, safety and welfare AIA learning units, or 5.0 PDH engineering learning units.

There is no charge for the “Day of Learning” and Plant Tour. For more information, or to register visit www.spancrete.com.

About The Spancrete Group, Inc.

Headquartered in Waukesha, Wis., The Spancrete Group, Inc. is a leading provider of architectural and structural precast concrete products to the Midwest construction industry. A third-generation, family-owned company, Spancrete is an industry pioneer, committed to being the most responsive partner and innovative provider of precast products and solutions. The company operates four precast concrete plants in Wisconsin and Illinois, Spancrete Machinery Corporation in Waukesha, and American Concrete Pipe Company in Green Bay and Milwaukee. The company recently announced the purchase of Florida Precast Industries, Inc., a manufacturer of Spancrete products serving the precast construction needs of central and southern Fla. All Spancrete facilities are PCI certified and supply precast concrete products to the entire Midwest region.
