### 'Top Project' Awarded to Spancrete for Work on Bayshore Parking Structure

Spancrete Also Involved with Five Additional Award-winning Entries

**Waukesha, Wis.** (May 15, 2007) – The Spancrete Group, Inc., the leading provider of architectural and structural precast construction solutions, along with Corna/Kokosing Construction Co., recently received a Wisconsin Builder Top Projects of 2006 award for its work on the Bayshore Town Center North Parking Structure.

Located in Glendale, Wis., the north parking structure is a 600,000 square foot mixed-use facility providing retail, parking and residential space to nearby Bayshore Town Center.

"Being involved with a project the caliber of Bayshore was an honor," said John Nagy, president of The Spancrete Group. "Bayshore is a fantastic looking building and the actual construction process is a true testament to the time- and cost-efficiencies of using precast."

Photo Caption: Spancrete and Corna/Kokosing were recently awarded with Top Project honors for their work on the Bayshore Town Center North Parking Structure, shown here.

From initial design to finished erection, the parking structure project was completed in just 16 months. This includes determining how to transform three levels of parking to blend with the entire Bayshore façade and how to comply with a shortened construction window to meet the holiday shopping deadline. Coming in on budget, the project was successfully finished in November 2006.

In addition to the parking structure project, Spancrete also provided precast concrete components to five additional award-winning projects, including:

Forest County Potawatomi Executive Building  
Bucyrus International  
Palermo Villa Manufacturing Facility & Corporate Headquarters  
University of Wisconsin – Park Street Development  
Tri-North Builders Corporate Headquarters

Hosted by The Daily Reporter and Wisconsin Builder, this year's award competition highlighted 30 projects completed in 2006, located throughout the state.

## About The Spancrete Group, Inc.

Headquartered in Waukesha, Wis., The Spancrete Group, Inc. is a leading provider of architectural and structural precast concrete products to the Midwest construction industry. A third-generation, family-owned company, Spancrete is an industry pioneer, committed to being the most responsive partner and innovative provider of precast products and solutions. The company operates four precast concrete plants in Wisconsin and Illinois, Spancrete Machinery Corporation in Waukesha, and American Concrete Pipe Company in Green Bay and Milwaukee. All Spancrete facilities are PCI certified and supply precast concrete products to the entire Midwest region. The company recently announced the purchase of Florida Precast Industries, Inc., a manufacturer of Spancrete products serving the precast construction needs of central and southern Florida.
